

Abstracts Proceedings of the 10th International Ruminant Reproduction Symposium

Abstract #	Page	Title	First author
001	1015	Effects of follicular ablation on follicular growth and codominance in be	Acosta TJ
002	1016	Supplementation of 17 β -estradiol and progesterone in the co-culture m	Alfradique V
003	1017	Effect of zinc supplementation on the area of corpus luteum and proge	Anchordoquy JM
004	1018	Delayed time of luteolysis using ovulatory doses of GnRH on days 8 an	Baez GM
005	1019	The anti-equine Chorionic Gonadotrophin (eCG) antibody response aft	Beracochea F
006	1020	Timing of regression of contralateral accessory corpora lutea in pregna	Consentini CEC
007	1021	Fractal analysis is a useful tool to evaluate bovine luteal development	Fávero PF
008	1022	Hormonal treatment post insemination for induction of accessory corpo	Fernandez J
009	1023	Dietary restriction in sheep: uterine functionality in ewes with different b	Fernandez-Foren A
010	1024	Testosterone concentration profiles in bucks treated with a GnRH-agon	Giriboni J
011	1025	Follicle and hormone profiles during selection of the dominant follicle u	Gomez-León VE
012	1026	The Periovarian Endocrine Milieu Affects the Metabolomic Profile of t	Gonella-Díaz AM
013	1027	Local effect of the corpus luteum (CL) on reproductive tract functionali	Graña-Baumgartner A
014	1028	Functional transitions in the corpus luteum are associated with change	Hughes CK
015	1029	The involvement of resistin in the regulation of gonadotropin secretion	Kirsz K
016	1030	Expression of inhibin α subunit in bovine theca cells: does inhibin α co	Laird M
017	1031	Development of a physiological model of proestrus in cows using exog	Motta JCL
018	1032	Intensity of estrous expression detected by automated monitor and its r	Madureira AML
019	1033	Administration of endothelin-1 induces complete luteolysis in cyclic ewe	Milvae RA
020	1034	The response of ovarian follicle at the early static phase, to eCG-GnRH	Naslaji AN
021	1035	Effect of IGF2 on bovine luteinising follicular angiogenesis and progest	Nwachukwu CU
022	1036	Luteal regression is compromised in high producing lactating Holstein c	Oliveira AP
023	1037	Proinflammatory cytokine gene expression in endometrium and fertility	Pfeifer L
024	1038	Health status and resumption of ovarian cyclicity in dairy cows	Ruprecht G
025	1039	Protein supplementation control on luteal progesterone and expresion e	Shikh Maidin M
026	1040	Resistin regulates prolactin concentrations from the ovine adenohipop	Szczesna M
027	1041	Association of antral follicle count and peripheral anti-Müllerian hormon	Tanaka M
028	1042	Use of FSH in FTAI protocol in high producing lactating dairy cows	Teixeira RG
029	1043	Creep feeding has no effect on antral follicle count at weaning	Vinoles C
030	1044	Mechanism of LH release after peripheral administration of kisspeptin i	Leonardi CEP
031	1045	Estrous cycle stage-specific actions of exogenous prostaglandin F2 α o	Piotrowska-Tomala KK
032	1046	Elevated free fatty acid concentrations alter gene expression, cell proli	Sharma A
033	1047	Prostaglandin profile in pregnant cows during initiation of active placen	Reese ST
034	1048	Components of Biserrula pelecinus that affect in vitro maturation of ovi	Amir AA
035	1049	Effect of supplementation with Cysteine, Glycine and Glutamate during	Anchordoquy JP
036	1050	Heat shock compromises bovine oocyte endoplasmic reticulum reorga	Barbosa Latorraca L
037	1051	Influence of sodium pump on ram sperm parameters	Câmara DR
038	1052	Ghrelin antagonist: possible solution for in vitro oocyte maturation from	Carranza Martin A
039	1053	Oxidative stress in newborn calves with intrauterine growth retardation	Chernitskiy AE
040	1054	Lipid profile during bovine initial development unraveled by sensitive M	Lima CB
041	1055	Addition of pregnancy-associated plasma protein-A (PAPP-A) during in	Dellaqua TT
042	1056	An investigation into the factors affecting milk pregnancy associated gly	Doyle RC
043	1057	Distinct expression profile of microRNAs in maternal serum indicates e	Gebremedhn S
044	1058	The kinetics of the first cleavages impacts the regulation and levels of	Ispada J
045	1059	Gene expression related to meiosis resumption after associated use of	Pioltine EM
046	1060	Dynamic changes in miRNAs during early embryonic development in b	Mazzarella R
047	1061	Interferon-tau is induced in bovine Day-4 embryos by oviduct epitheliu	Miyamoto A

Abstracts Proceedings of the 10th International Ruminant Reproduction Symposium

Abstract #	Page	Title	First author
048	1062	Seasonal influence on spermatic parameters and testosterone levels of	Moya-Araujo CF
049	1063	Hormonal metabolic aspects of embryonic mortality of cows and the ef	Nezhdanov AG
050	1064	Protective effects of cysteamine on bovine oocyte mature in vitro with e	Nikoloff N
051	1065	Influence of preovulatory estradiol on uterine luminal fluid proteomics a	Northrop E
052	1066	Differential expression of LH receptor, LHR mRNA binding protein (LR	Chaves MP
053	1067	Transcripts abundance modulation by AREG and FSH treatments durin	Pronunciate M
054	1068	Lack of association of neospora caninum infection with late embryo los	Quintero Rodriguez LE
055	1069	Serum concentration of sex steroids in down-calving cows as predictor	Safonov VA
056	1070	HSPA5 and in vitro embryo production: effect of addition of the protein	Santos PH
057	1071	Effect of laterality of ovulation and the presence of embryo on uterine h	ME Silva
058	1072	Treatment of bovine embryos with dickkopf-related protein 1 from the r	Tribulo P
059	1073	Proteome profile of extracellular vesicles isolated from culture media o	Valdes J
060	1074	Prepuberal Sertoli cell proliferation differs between the bull and boar	Berger T
061	1075	Comprehensive evaluation of metabolic behavior in preimplantation em	Lima CB
062	1076	Differential transcript profiles in cumulus-oocyte complexes originating	Dickinson SE
063	1077	Effect of different feeding strategies on reproductive parameters in dair	Adrien ML
064	1078	Effect of maternal nutrition on embryo survival, uterine environment an	Galarraga MMB
065	1079	Impact of postpartum locomotion score on reproductive performance in	Chiozza-Logroño J
066	1080	Seasonal changes in melatonin concentrations in female guanaco (Lar	Correa LM
067	1081	Effect of controlled heat stress on follicular dynamics and steroid produ	Ferrazza RA
068	1082	Effects of temperament on reproductive performance of Bos taurus he	Dias NW
069	1083	Dose-dependent effect of astaxanthin on bovine spermatozoa exposed	Gomes KL
070	1084	Effect of Seminal Plasma on the interval to ovulation, dominant follicle	Huanca W
071	1085	Ewe fertility in group mating: Does the number of rams the ewe mates	Juengel JL
072	1086	Ovarian characteristics and somatic development in 2 to 5 months old	Kawamoto TS
073	1087	Milk yield periparturient diseases and body condition score as factors a	Mellado M
074	1088	The tail in estrous tropical hair ewes (Ovis aries) is used as a proceptiv	Orihuela A
075	1089	Pasture allowance in pregnant ewe: Effect on the development of the r	Pérez-Clariget R
076	1090	The permanent presence of ovariectomized steroid-treated goats does	Ramírez S
077	1091	Effect of somatic cell count and its temporal association with service da	Rearte R
078	1092	Aerobic metabolism is maintained in rams under testicular hyperthermi	Rizzoto G
079	1093	Associations between ovarian cyclicity uterine health body condition s	Canadas ER
080	1094	Expression of COX, PPARGC1-A and NRF-1 genes in granulosa cells	Rondina D
081	1095	Evaluation of the leucocitary response with the use of Pegbovigrastim i	Silva-Junior RA
082	1096	Maternal nutrient restriction followed by realimentation in beef cows alt	Tanner AR
083	1097	Introduction of androgenized steers during the late luteal phase triggers	Ungerfeld R
084	1098	Timing and duration of nutrient restriction and its impacts on placental	Vasquez-Hidalgo MA
085	1099	Effect of post-insemination intrauterine treatment with cephalixin on the	Wagener K
086	1100	Determinants of cytological endometritis in multiparous Holstein cows	Waldmann A
087	1101	Resistin acts as a link between reproduction and energy metabolism in	Zieba DA
088	1102	Estrous expression improves the success of timed artificial inseminatio	Madureira AML
089	1103	Heat stress induces proteomics changes in the follicular fluid of dairy c	Ferrazza RA
090	1104	Prostaglandin F2 α as an inducer of ovulation in Fixed Timed Artificial I	Almeida FB
091	1105	Cryopreservation of prepubertal bovine testicular tissue	Aponte PM
092	1106	Effect of heat shock on developmental competence in bovine oocytes c	Báez F
093	1107	Use interspecific fertilization as a tool the evaluate fertilizing ability of bu	Berdugo JA
094	1108	Comparison between ovine refrigerated spermatozoa from ejaculate an	Brightenti JVV

Abstracts Proceedings of the 10th International Ruminant Reproduction Symposium

Abstract #	Page	Title	First author
095	1109	Impact of GnRH administration at the time of AI on pregnancy and ovulation	Burnett TA
096	1110	Factors affecting the ovum pick-up and in vitro embryo production in buffalo	Carvalho NAT
097	1111	Modifications of a 5-d GnRH-based timed-AI protocol to optimize fertility	Colazo M
098	1112	Color Doppler ultrasonography for early pregnancy diagnosis in goats	Cosentino IO
099	1113	Effect of a single bST administration on follicular dynamics and ovulation	Cox JF
100	1114	Progesterone priming during follicular growth of Wave 1 improves pregnancy	Cuadro F
101	1115	Effect of pre-maturation culture using EGFR kinase inhibitor on embryonic	Dall'Acqua PC
102	1116	Autologous nuclear transfer in cattle does not increase cloning efficiency	Delaney-Cooper T
103	1117	Flow cytometry analysis of the mitochondrial membrane potential using	Diaz-Miranda EA
104	1118	Follicular emergence in zebu cows actively immunized against GnRH	Faria O
105	1119	Effects of sire breed and season on in vitro embryo production and survival	Féres LFR
106	1120	Ultrasonographic cervical evaluation in Lacaune ewes subjected to trans	Figueira L
107	1121	Efficient transcervical embryo collection in synchronous estrus-induced	Figueira L
108	1122	Equine chorionic gonadotropin (eCG) impacts the transcriptional profile	Franchi FF
109	1123	Evidence that pregnancy-associated plasma protein A (PAPP-A) plays	Giroto AB
110	1124	In vitro embryo production in Angus breed with semen sorted for male	Grázia JGV
111	1125	The effect of prostaglandin F2a (PGF2a) on cumulus expansion and gl	Grycmacher K
112	1126	Influence of parity category on conception rate of Holstein females sub	Guido SI
113	1127	Effect of GnRH on day 5 or 7 on pregnancy rate in dairy cows after AI v	Guzman C
114	1128	Impact of recombinant bovine somatotropin, progesterone, and estradi	Kaminski AP
115	1129	Effect of a one-time, strategic donor FSH-treatment on oocyte and emb	Konrad JL
116	1130	Down-regulated genes in in vitro produced bovine day 8 blastocysts du	Laskowski D
117	1131	The effect of ceftiofur hydrochloride on pregnancy rates of beef cattle s	Löf LM
118	1132	Effects of using either estradiol benzoate or GnRH at the beginning of a	Madureira G
119	1133	Murrah buffalo antral follicle count in ovaries from a slaughterhouse	Marques NFS
120	1134	Plasma and acrossomal integrity of bull spermatozoa cryopreserved wi	Marqui F
121	1135	Effects of moxibustion during the mid-luteal phase on blood flow to the	Matsui M
122	1136	Blastulation timing affects the blastocyst development and its secretion	Mellisho E
123	1137	Extracellular vesicle-depleted culture media improves quality of in vitro	Melo-Baez B
124	1138	Interference of dairy production on oocyte recovery and embryo conver	Miquelanti V
125	1139	Contribution of breed and equine chorionic gonadotropin on the collecti	Montes-Quiroz GL
126	1140	Is the laterality of the corpus luteum and the dominant follicle of Wave	Núñez Olivera R
127	1141	Influence of estrus expression in a fixed-time AI protocol on reproductiv	Perry GA
128	1142	Efficacy of Doppler ultrasonography to detect non-pregnant Nelore cow	Pugliesi G
129	1143	Effect of supplementation of a-tocopherol in superovulated Dorper ewe	Rangel-Santos R
130	1144	Characterization and control of the oocyte population for ovum pick up	Sakoda JN
131	1145	Differences in the endometrial response to age-matched long and short	Sánchez JM
132	1146	Effect of time of gamete co-incubation on in vitro production of bovine e	Santos Filho AS
133	1147	Improvement on the composition of sequential culture media based on	Santos EC
134	1148	Transcervical is more efficient than surgical embryo collection in Brazil	Santos J
135	1149	Factors that affect embryo transfer conception rate in lactating dairy co	Santos RM
136	1150	Sertoli cell-mediated differentiation of bovine fetal mesenchymal stem c	Segunda M
137	1151	Nuclear Maturation of bovine oocytes submitted to intrafollicular transfe	Silva VAO
138	1152	Effects of ovarian synchronization associated with a two-step IVM strat	Soares ACS
139	1153	Superstimulation prior to the ovum pick-up to improve the in vitro embr	Soares JG
140	1154	A pre-maturation with C-type natriuretic peptide plus estradiol prolongs	Soto-Heras S
141	1155	Effect of CRISPR/Cas9 microinjection on development and mutation rate	Souza-Neves M

Abstracts Proceedings of the 10th International Ruminant Reproduction Symposium

Abstract #	Page	Title	First author
142	1156	Relations between plasma anti-muellerian-hormone (AMH) concentration and	Vernunft A
143	1157	Prostacyclin PGI2 modulates in vitro maturation of bovine cumulus-oo	Woclawek-Potocka I
144	1158	Effect successive ovum pick up on follicular development, and oocyte c	Yuponi R
145	1159	Birth of fresh or vitrified CRISPR/Cas9 microinjected sheep embryos tr	Santos Neto PC
146	1160	Oocyte quality and in vitro embryo production of aged Nellore cows sel	Alvarez RH
147	1161	Differences in transcriptomic data from preovulatory follicles of buffalo	Berdugo JA
148	1162	Histone deacetylase inhibitor during pre-maturation (PIVM) and/or in vi	Caixeta F
149	1163	Heritability and genetic correlations for scrotal circumference at differer	Chacón J
150	1164	The embryo regulation of the immune system in day 14 endometrium is	de Brun V
151	1165	Dynamic changes in bovine endometrial stem cells throughout estrus c	Lara E
